WHO IS A LITIGANT?

Litigants are persons or group who are litigating a dispute either in person or with an advocate, solicitor or a barrister.

Litigant Association of Kenya carries its mandate to its members as enshrined under the Kenyan Constitution (2010) article 22, 27, 28, 29, 40, 48, 50, 51 and 159 and is registered in Kenya under societies Act (The Societies Rules, 1968; Rule 4).

The association is necessary for litigants' security, and for checks and balances due to corruption and lack of integrity by some legal representatives, and some Kenyans in general. We shall, therefore, put pressure on the Law Society of Kenya (LSK) to make sure that litigants get quality services and justice since the LSK is a very important body, if the Kenyan economy is to grow.

Litigant Association of Kenya is a forum through which litigants share their challenges, and establish the way forward.
